

# PLANTRONICS ENCOREPRO™

## Designed for performance – built to last

The Plantronics EncorePro takes a different approach to headset design. Every component has been designed and produced with one aim – the best performance. The microphone is designed to sit in exactly the right place for optimum audio clarity, and the low slung design ensures it can not be seen by the wearer. The slim speaker has a wideband frequency response for clearer and more intelligible conversations. We've made no compromise on reliability, durability, comfort or audio quality – EncorePro, designed for performance, built to last.

### Key features:

- **Enhanced noise-cancelling, and wideband audio** – give you clearer conversations with your customers enabling you to offer a better service
- **Distinctive and unique design** – provide high performance and a stylish look
- **Slim and discreet construction** – ensures comfort and allows you to fully focus on the customer
- **VoIP ready** – through the use of enhanced echo control and wideband audio, allows you to preserve your investment through future phone system upgrades
- **Seven axes of adjustability** – ensure you can wear the headset in the most comfortable and effective position
- **Plantronics heritage in reliability and durability** – continues with the EncorePro ensuring the agent is always available
